EXECUTIVE PROFILE

ESG, Sustainability and EHS leader with 16+ years building and assuring environmental, social and governance performance across packaging, beverages, cement, automotive and footwear manufacturing. Currently directs EHS and Sustainability for 28 manufacturing plants, 18 warehouses and 4 corporate offices, leading a 13-member professional team. Delivers externally validated outcomes — S&P Global CSA 70, CDP B, EcoVadis 70 — through evidence-based data governance, multi-site audit assurance and disclosure aligned to GRI, CDP, CSRD, TCFD, SBTi and BRSR. Designed and operated a 241+ supplier ESG assessment programme spanning environmental performance, labour and human rights, ethics and sustainable procurement. Authored and enforced a 19-policy corporate ethics and compliance framework — code of conduct, anti-bribery and anti-corruption, AML, anti-discrimination and ethical sourcing — with implementation and monitoring embedded across every location. Recognised for converting regulatory obligation into measurable operating advantage and for driving cross-functional results without direct authority.

SIGNATURE ACHIEVEMENTS

- **Externally Validated ESG Performance** — Achieved S&P Global CSA score of 70 and a CDP B rating, and secured an EcoVadis score of 70, placing corporate ESG disclosure and compliance practice in the upper tier of rated peers.
- **Largest Multi-Site EHS Mandate** — Directs Environment, Health, Safety and Sustainability across 28 manufacturing facilities, 18 warehouses and 4 corporate offices with 13 direct reports — full statutory compliance maintained estate-wide.
- **Supplier Assurance at Scale** — Built and ran the EcoVadis Supplier ESG Assessment Programme covering 241+ suppliers, scoring environmental performance, labour and human rights, ethics and sustainable procurement to strengthen responsible sourcing and value-chain resilience.
- **Ethics & Compliance Programme Ownership** — Framed and executed a 19-policy corporate ethics and compliance architecture — code of conduct, anti-bribery and anti-corruption, AML, anti-discrimination, ethical sourcing and corporate governance standards — then led implementation, monitoring and training across every operating location.
- **Net Zero Roadmap** — Designed and operationalised an SBTi-aligned pathway to carbon neutrality by 2050, covering 100% renewable energy transition and structural waste reduction.
- **Compliance Digitisation** — Digitised Legal Compliance, ESG and EHS management systems, materially improving reporting accuracy, evidence traceability and audit-readiness across the estate.

CORE COMPETENCIES

EPR, Circular Economy & Product Compliance: Extended Producer Responsibility (EPR), Packaging Compliance, Plastic Waste Management Rules, Producer Responsibility Organisations (PRO), Third-Party Service Provider Management, Recycler Network Management, Recycled Content, Waste Diversion & Reduction, Circular Economy Programmes, Regulatory Horizon Scanning, Compliance Reporting & Submissions

EHS Management: ISO 14001, ISO 45001, Environmental Management Systems (EMS), Occupational Health & Safety, Hazard Identification & Risk Assessment (HIRA), Incident Investigation, Statutory & Legal Compliance, Industrial Safety Engineering, Audits & Inspections, Safety Culture Transformation, EHS Training & Capability Building

Responsible Sourcing & Social Performance: Supplier ESG Assessment, Labour & Human Rights Due Diligence, Ethical Sourcing, Supplier Code of Conduct, Anti-Bribery & Anti-Corruption, AML, Anti-Discrimination, Compliance & Ethics Programmes, CSR Programme Design, Community Engagement

Data, Systems & Leadership: EHS/ESG Digitisation, Compliance Data Governance, KPI & Performance Metric Design, ESG Data Collection & Analysis, Benchmarking & Industry Research, Cross-Functional Programme Management, Influence Without Authority, Stakeholder Engagement, Team Leadership (13 direct reports), Global Client Advisory

PROFESSIONAL EXPERIENCE

Jul'23 – Present: Altronicq Limited (formerly Manjushree Technopack), Bangalore as General Manager – EHS & Sustainability

Scope: 28 manufacturing plants · 18 warehouses · 4 corporate offices · 13 direct reports · rigid plastic packaging manufacturing

ESG STRATEGY, DISCLOSURE & BOARD ENGAGEMENT

- Developed and executed comprehensive enterprise ESG strategy integrating GRI, CDP, CSRD and TCFD frameworks across all sites, aligning operational objectives with sustainability targets, Net Zero commitments and long-term corporate responsibility initiatives.
- Led CDP submissions and developed ESG reports ensuring compliance with BRSR and CSRD requirements; achieved an EcoVadis score of 70, an S&P Global CSA score of 70 and a CDP B rating.
- Designed and operationalised SBTi-aligned pathways to carbon neutrality by 2050, encompassing 100% renewable energy transition and structural waste reduction.
- Facilitated board-level ESG discussions, investor reporting and strategic communications to senior leadership and external stakeholders.

ETHICS, COMPLIANCE & CORPORATE GOVERNANCE

- Owns the corporate ethics and compliance programme across all operating locations — leading implementation and monitoring to ensure adherence to regulatory requirements, corporate governance standards, code of conduct and anti-corruption practices.
- Framed and executed 19 corporate policies spanning anti-bribery, anti-corruption, anti-discrimination, AML, ethical sourcing and corporate governance standards, establishing the governance backbone for a 28-site manufacturing group.
- Extended compliance oversight into the value chain through third-party and supplier due diligence, embedding ethics, labour and human rights, and anti-corruption expectations into sourcing decisions.
- Digitised Legal Compliance, ESG and EHS systems to strengthen reporting, tracking, evidence traceability and audit-ready compliance management.

ASSURANCE, AUDIT & RISK GOVERNANCE

- Directs EHS and Sustainability functions across 28 sites, ensuring full regulatory and statutory compliance while embedding a robust, safety-focused operational culture company-wide.
- Ensures conformance to ISO 14001 and ISO 45001 across the estate, managing external certification bodies and surveillance audit cycles alongside environmental law and ESG framework obligations.
- Implemented enterprise risk assessment programmes to identify, evaluate and mitigate EHS hazards across manufacturing, warehousing and corporate operations.

CIRCULAR ECONOMY, PACKAGING & PRODUCT STEWARDSHIP

- Oversees packaging waste and Extended Producer Responsibility (EPR) obligations under India's Plastic Waste Management Rules, including registration, periodic returns, third-party recycler and PRO engagement, and compliance documentation.
- Drives waste reduction and material circularity initiatives that lower environmental impact while improving resource and cost efficiency across the manufacturing footprint.

RESPONSIBLE SOURCING & SOCIAL IMPACT

- Led implementation of the EcoVadis Supplier ESG Assessment Programme, evaluating 241+ suppliers across environmental performance, labour and human rights, ethics and sustainable procurement — strengthening responsible sourcing and value-chain sustainability.
- Created and implemented CSR programmes that advance community engagement and organisational social responsibility commitments consistently across operations.

LEADERSHIP & OPERATIONAL EXCELLENCE

- Manages 13 EHS professionals across manufacturing, warehouse and corporate locations, building competence standards, training pathways and a culture of collaboration, accountability and performance excellence.
- Streamlined EHS systems to improve operational efficiency and sustainability performance estate-wide.

Oct'20 – Jul'23: Independent Practice (Global Client Portfolio), Bangalore as ESG & Sustainability Consultant

- Provided expert consulting on Net Zero strategies, ESG data management and corporate sustainability frameworks for multiple clients globally.
- Designed customised ESG solutions aligning corporate goals with the Science Based Targets initiative (SBTi) and international sustainability standards.
- Supported organisations in ESG reporting including CDP disclosures, EcoVadis scoring and regulatory compliance documentation, delivered accurately and to deadline.

- Conducted industry research to benchmark ESG assessments and provide actionable insight for strategic sustainability initiatives.
- Coordinated real-time ESG data collection and analysis, generating models that supported informed corporate decision-making.
- Developed client-specific sustainability advisory pitches ensuring solutions addressed each client's unique ESG challenges and operational constraints.

Mar'16 – Oct'20: PepsiCo India Holdings / Varun Beverages Limited, Bangalore as Deputy General Manager – EHS

- Managed EHS functions in the plant, ensuring regulatory compliance and effective risk mitigation.
- Identified environmental risks and streamlined EHS processes to improve sustainability and resource efficiency.
- Led HSE programmes and innovative safety initiatives to enhance workplace safety and environmental responsibility.
- Conducted audits, inspections and risk assessments to identify hazards and improve operational safety.
- Trained employees on HSE procedures and implemented corrective actions to strengthen compliance and safety culture.
- Aligned HSE management systems with organisational goals, sustainability targets and continuous improvement initiatives.

Aug'15 – Dec'15: IFB Automotive Pvt Ltd, Bangalore as Deputy Manager – Occupational Health & Safety

- Managed OHS programmes, ensuring strict compliance with company and regulatory standards across all operations.
- Conducted audits and inspections, identifying hazards, implementing preventive measures and minimising operational risk.
- Delivered employee training on occupational health and safety procedures to promote a proactive safety culture.

Jun'12 – Jun'15: Zuari Cement Limited (Cement & Building Materials), Chennai as Deputy Manager – Health & Safety

- Developed and implemented H&S programmes ensuring compliance with organisational and industry standards while mitigating operational risk.
- Conducted risk assessments and audits, proactively identifying hazards and implementing timely corrective actions across operations.
- Enhanced employee H&S awareness through structured training and engagement initiatives, promoting a consistent safety culture.

Nov'10 – May'12: Hindustan Motors Limited (Automotive Manufacturing), Tiruvallur as Safety Officer

- Delivered site-level occupational safety across automotive production operations — statutory compliance, hazard identification, routine inspection and corrective action on the shop floor.

Nov'09 – Oct'10: Lotus Footwear Enterprises Pvt Ltd (Export-Oriented Unit), Cheyyar as Safety Officer

- Handled occupational safety, statutory compliance and workforce safety training across high-volume export production — the operational grounding underpinning subsequent multi-site EHS and assurance leadership.
